KUO, CHEN CHIH 郭晨志

M.S. in Chemical Engineering • Licensed environmental specialist

Seeking **ISEP EHS Engineer**

Email b29374665@gmail.com
Phone +886 966 521 882
Website b29374665-design.github.io/isep
Xinzhuang, New Taipei · Open to relocation / shifts
Other Exempt · Car licence · Graduating Aug 2027; pre-hire, available Oct 2027

Profile

NTUST Chemical Engineering M.S. candidate holding three environmental specialist licences (**wastewater, waste, indoor air**), OSH exams scheduled (OSH Management Personnel, Level B, pre-screen passed, Nov 2026; Occupational Safety Management Specialist, Level A, Mar 2027); hands-on with **hazardous materials** (lithium metal, organic-solvent electrolytes, faulty Li–$SOCl_2$ cells), lab safety and **TGA / DSC thermal-hazard assessment**, plus **dry-room** clean-area work. Seeing synchrotron equipment run for 30+ years on preventive maintenance convinced me that systems are what keep people safe, and I want to learn to apply it in a fab.

Experience

2025 – Present — **Sustainable Electrochemical Energy Development (SEED) Center, NTUST** • MOE Featured Areas Research Center

Lab Safety, Equipment & Asset Maintenance Officer

- **Rules:** wrote the TGA's PPE and ventilation rules and the TGA / DSC booking and usage rules that every user, including other labs, must follow — e.g. no DSC heating of unknowns without prior TGA decomposition data; volatile solvents only in pressure-rated pans. High-risk samples (Prussian blue, sulfides) need PI approval.
- **Procurement (>NTD 2M):** sourced, accepted and logged safety-critical equipment such as glovebox O_2 sensors, plus annual service contracts and consumables.
- **Lab safety (≈60–70 people, 9 gloveboxes on two campuses):** monitor glovebox O_2 / moisture levels and handle sensor faults; run daily gas-cylinder checks and lab safety walk-throughs and brief newcomers on safety.
- **Incident response:** when a broken bottle cut a student, I sent people to take her to the ER and alert the lab lead, had the SDS checked, then absorbed the spill, cleared the glass and ventilated; she returned after stitches. Afterwards I replaced expired respirator cartridges and Hexafluorine.
- **Hazardous materials:** handle lithium metal and assemble coin cells in a glovebox, prepare ether / carbonate organic-solvent electrolytes, and dismantle and handle faulty Li–$SOCl_2$ cells.
- **TGA testing service:** Ran TGA measurements and data interpretation for graduate students from 6 labs across Chemical, Mechanical and Materials Engineering at NTUST — over 600 samples in total, including my own lab's.
- **Instrument maintenance:** Responsible for maintenance and calibration of the key thermal analysis instruments, TGA Q500 and DSC 2500.

Summer 2022 — **New Taipei City Dept. of Urban Development**

Summer Intern, Housing Development Section

- Rental-subsidy eligibility checks: cross-matched property, income and insurance records from the tax bureau, land registry and NHI against legal thresholds; handled frontline public inquiries and disputes.

2021 – 2024 — **Tunghai University Student Housing / GEPT**

Resident Assistant (2 yrs) / Exam Staff (part-time)

- Safety and dispute mediation in a 100-resident dorm; exam-paper check-in with zero errors.

Research & Industry

Long-Life Li Battery Evaluation for Smart Water Meters

Partner: a smart-water-meter battery maker **Project lead**

Database & SOP
Established the test database and standardized high-throughput screening procedures (SOP).

Training & tech transfer
Trained QA and R&D teams to independently run large-batch screening and data interpretation.

Nature Materials Journal submission — battery thermal stability study Status Under review
Co-author Responsible for TGA thermal measurement

Conferences & Training

Presenter **2026 TwIChE Annual Meeting**
2026/12/05–06 • Feng Chia University
Title: *Weakly Solvating Allyl Ether Electrolytes for Subzero Li ‖ SPAN Batteries: Solvation Structure, Transport Properties, and Separator Wettability*

Vendor seminar **TA Instruments ARES-G3 launch & applications forum**
2026/07/17 • National Taiwan University

Vendor lecture **TA Instruments TGA lecture**
2026/06/03 • National Taiwan University

EHS Licenses

- Dedicated Wastewater and Sewage Treatment Specialist (Class B)
  2026 / 06 · certified · No. GB040231
- Indoor Air Quality Maintenance Management Specialist
  2026 / 08 · certified · No. IA020236
- Waste Disposal Technician (Class A)
  2026 / 10 · certified · No. HA160629
- Occupational Safety and Health Management Personnel (Level B)
  2026 / 11 · exam, pre-screen passed
- Occupational Safety Management Specialist (Level A)
  2027 / 03 · exam scheduled

Industrial Hygiene Engineer credit programme (Chinese Culture University)
Industrial Hygiene and Industrial Safety completed; OSH Management & Risk Assessment in progress.

Education

2025 – 2027/08 (expected)
National Taiwan University of Science and Technology
M.S. in Chemical Engineering

Focus on low-temperature electrolytes and battery aging. Coursework: Nanomaterials and Applications (lithography, nanoimprint & self-assembly), Process Safety & Radiation Protection.

2020 – 2024
Tunghai University
B.S. in Chemical & Materials Engineering

Focus on unit operations & process control (Aspen Plus V14 / Aspen Dynamics simulation).

Skills & Instruments

EHS fundamentals
Chemical labelling rules (GHS) · Explosive limits (LEL / UEL) · Occupational exposure limits · Ventilation

Process & operations
Equipment procurement & maintenance

Software
Aspen Plus V14 · Aspen Dynamics · Microsoft Office · OriginPro · TA Universal Analysis · TA TRIOS

Instruments

Maintenance
TGA Q500 · DSC 2500

Operation
Anton Paar DMA 5002/Lovis 2001 · ARES-G3 · Glovebox · Synchrotron (TLS 20A / TPS 27A / TPS 45A)

Procurement
Glovebox O_2 sensor · DSC sample press · Hydraulic electrode punch · Vacuum pump · Eppendorf Pipette · Low-temperature bath
